RELEASES

Recommendation

Missing GitHub artifact attestations for release assets
main.js, styles.css
Artifact attestations let users cryptographically verify the provenance of the release assets, proving they were built from the source repository. [Learn more](#)

NETWORK REQUESTS

Pass

No suspicious network patterns found.

SOURCE CODE

Error

For a consistent UI use `new Setting(containerEl).setName(...).setHeading()` instead of creating HTML heading elements directly.
[src/settings.ts:20](#) [src/settings.ts:105](#)

Error

Uses Obsidian APIs newer than the declared `minAppVersion`
`obsidianmd/no-unsupported-api`
